# Beds & Mattresses

Combine various storage solutions & parts to create a bed tailored to you & your lifestyle. We've carefully created and developed various bed options to make your sleep and daily life comfortable.

## Pocket Coil Mattress

A mattress designed with individually wrapped coils to fully support your body.

### Why pocket coil mattress?

Each independent barrel shaped spring is wrapped in a non-woven fabric, and each coil functions independently to provide the optimum firmness that is most suitable for proper support & posture.

- Urethane Foam 15mm, Coil thickness: 1.9mm, Height: 180mm, Height wrapped in casing: 140mm
- Features numerous areas of firmer support to hold your body weight
- Creates an even distribution of weight to ensure a stable posture
- Reduces the amount of sinking

Single  
W38.0" x D76.7" x H7.5"  
4550344520147  
\$700.00

Double  
W55.0" x D76.7" x H7.5"  
4550344520161  
\$800.00

Queen  
W63.0" x D76.7" x H7.5"  
4550344520178  
\$900.00

### Rotate your mattress to extend its lifespan

We recommend rotating your mattress 180 degrees every season, as the strength of the springs may deteriorate if weight is continuously applied to the same areas. By swapping the mattress orientation and distributing your body weight evenly over time, you can reduce the load on the springs. Make sure to also periodically air the mattress by standing it up for a brief time.

## Wooden Bed

With its simplistic design, the bed frame suits any room, while featuring ample storage space underneath due to the 11.8" length legs. Maximize vertical space by using various storage options under the bed.
